4. FIRST AID MEASURES

4.1 Description of First Aid Measures:

- **On contact with eyes**: Flush with water.
- **On skin contact**: Flush with water. Wipe off. Obtain medical attention.
- **If inhaled**: Remove to fresh air.
- **On ingestion**: Obtain medical attention.

4.2 Most important symptoms/effects, acute and delayed: May cause sensitization by skin contact.

5. FIRE-FIGHTING MEASURES

5.1 Suitable extinguishing media: On small fires use carbon dioxide (CO2), dry chemical or water spray. On large fires use dry chemical, foam or water spray (fog). Water can be used to cool fire exposed containers.

Unsuitable extinguishing media: None known.

5.2 Hazards during fire fighting: None known.

Hazardous Combustion Products: Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products: Silica. Carbon oxides and traces of incompletely burned carbon compounds. Formaldehyde. Sulphur products.

5.3 Special protective equipment/procedures: A self-contained respirator and protective clothing should be worn. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures: Wear proper protective equipment.

6.2 Environmental precautions: Do not allow large quantities to enter drains or surface waters.

6.3 Methods and materials for containment and cleaning up: Scrape up and place in a container fitted with a lid. The spilled product produces an extremely slippery surface.
7. HANDLING AND STORAGE

7.1 Advice on safe handling
General ventilation is recommended. Local ventilation is recommended. Avoid skin and eye contact. Do not breathe vapour. Do not ingest. Do not empty into drains.

7.2 Advice on storage
Do not store with oxidizing agents. Keep container closed and store away from water or moisture.
Storage temperature: maximum 32 °C

7.3 Specific uses
Refer to technical data sheet available on request.

8.2 Exposure controls

**Engineering Controls**: Ventilation: Refer to Section 7.1

**Personal protection equipment**

**Respiratory protection**: Suitable respiratory protection should be worn if the product is used in large quantities, confined spaces or in other circumstances where the OEL may be approached or exceeded.
Depending on the working conditions, wear a respiratory mask with filter(s) AX or use a self-contained respirator.
The choice of a filter type depends on the amount and type of chemical being handled in the workplace. Regarding filter characteristics, contact your respiratory protection supplier.

**Hand protection**: Chemical protective gloves or gauntlets should be worn and removed correctly to avoid skin contamination: Silver shield(TM). 4H(TM). Regarding glove's breakthrough time, contact your chemical protective glove supplier.

**Eye/face protection**: Safety glasses should be worn.

**Skin protection**: Wear impervious overalls in circumstances where significant skin contact can occur.
