

## LRM Label Remover

LRM is suitable for the removal of pressure sensitive adhesive labels from a variety of surfaces. LRM should be sprayed or wiped onto the label to be removed, and left for 5 minutes. After this time the label should peel off and the surface can be wiped clean.

- Non-CFC, non-halogenated solvent for the safe removal of adhesive labels
- Allows label to be simply peeled off without leaving adhesive residue or scratching surface
- Harmless to most plastics, rubbers, elastomers, and surface coatings when used as directed
- Test sensitive plastics on a small area first; do not use on polystyrene

<b>Approvals</b>	<b>RoHS-2 Compliant (2011/65/EU):</b> <b>Nato Stock No. (LRM200D):</b>	<b>Yes</b> <b>8010-99-810-4705</b>
------------------	---	---------------------------------------

### Typical Properties

Density (g/ml @ 20°C):	0.830 (bulk) 0.79 (aerosol)
Inhalation Toxicity:	300 ppm
Residue on Evaporation:	<1ppm
